

**REMARKS/ARGUMENTS**

***Amendments in General***

1. The abstract of the application has been amended to remove the numbers from the previously presented abstract. This amendment adds no new matter to the application and is intended to overcome the Examiner's objection to the specification. Applicant respectfully requests acceptance of this amendment.
2. Claims 4, 10, 21 have been canceled from the application.
3. Claim 9 has been amended to conform with the election made by the Applicant in this case and claim 23 has been added to further provide further distinction between the claim of the present invention and the device taught in the Atkins reference which was cited by the Examiner during the prosecution of the parent application.
4. The claims of the present invention clearly include the presence of a lip edge that rolls radially. The Atkins reference which was cited by the Examiner during the prosecution of the parent application does not contain this feature. The devices shown in the Atkins reference do not contain a lip edge that rolls radially. Claim 23 specifically contains this feature.
